

# CYBER 210 – DEV ENV HOW TO

## Login Instructions:

MITMPROXY: <http://10.188.199.221:8081> password: Pa44word1234

ECHO SRV: <https://10.188.199.211> (this will be CAM's Baby)

SSH: 10.188.199.211

User: Cam / Aura Password: Pa\$\$word1234

The docker files are located in /OPT/

```
vbox@vbox-17-mics:/opt$ tree .
-- containerd [error opening dir]
-- mitmproxy
|  -- certs
|  |  -- mitmproxy-ca-cert.cer
|  |  -- mitmproxy-ca-cert.p12
|  |  -- mitmproxy-ca-cert.pem
|  |  -- mitmproxy-ca.p12
|  |  -- mitmproxy-ca.pem
|  |  -- mitmproxy-dhparam.pem
|  -- docker-compose.yml
-- nginxdemo
|  -- config
|  |  -- default.conf
|  -- docker-compose.yml
|  -- html
|  |  -- index.html
7 directories, 10 files
```

Follow the Installing the mitmproxy CA Certificate Guide to get rid of the security warning.
